Design Kit \$660 (GST inc.)

## ONLINE

Enrol anytime

10 hours per week

2-3 years

\$16,990 (GST free)

No visa required

Design Kit included (Domestic only)

If you're dreaming of a job where no two days are the same, interior design could be your perfect fit. Interior Designers don't just decorate, they shape the spaces where people live, work, and connect, influencing how we experience the world every day.

Our Diploma is designed for curious, creatives who want to think big and make real change. You'll gain hands-on skills and industry insight to confidently work across both residential and commercial design, from homes and cafes to offices, retail stores, and restaurants.

You'll begin by exploring the foundations of design, from colour to space planning, and put your skills into practice by designing residential spaces for real clients. From there, you'll step into the exciting world of commercial design where you'll bring your creative concepts to life and visualise your ideas using the latest industry 2D and 3D software.

By graduation, you'll have a professional portfolio of work that demonstrates your creativity, technical skill, and readiness to join a design studio or start your own design business. If you're ready to push your skills further, you can continue into our Advanced Diploma of Interior Design, opening doors to even more exciting opportunities.

Start your creative journey today and design a future you'll love.

# Units of Study

## **VOC01: DESIGN FOUNDATIONS**

Develop a comprehensive understanding of the interior decoration and design industries while building a strong foundation in essential skills such as colour schemes and freehand sketching.

## **VOC02: SPACE AND SCALE**

Explore key principles of residential planning across a range of residential spaces including kitchens, bathrooms and living spaces. Create lighting layouts and detailed floor plans to bring your ideas to life.

## **VOC03: INTERIOR SCHEMES**

Build confidence in selecting and sourcing furniture, textiles, furnishings, upholstery and window treatments to meet diverse client briefs. Learn to present cohesive interior schemes.

## **VOC04: RESIDENTIAL DESIGN AND DECORATION**

Consolidate your design skills by undertaking a real-world residential project - from initial briefing and space planning to the development of a complete interior furnishings scheme.

## **VOC05: 2D DIGITAL FOUNDATIONS AND RESIDENTIAL CONSTRUCTION**

Master 2D drawing software to produce a complete documentation package. Learn the fundamental principles and practical applications of building structures, systems, the NCC and standards within the context of residential projects.

## **VOC06: RESIDENTIAL DESIGN AND PLANNING**

Design, plan and model residential spaces that respond to changing client needs, lifestyles and environments. Learn how to manipulate 3D space through exploring extensions, voids and stairs.

## **VOC07: 3D DIGITAL FOUNDATIONS**

Build dynamic detailed 3D models of interior spaces using the latest industry software. Apply materials, textures, and lighting and create stunning photorealistic renders.

## **VOC08: CONCEPTUAL EXPLORATION AND TRANSLATION**

Master the art of concept development and creative exploration as you deep dive into the design process - from developing a unique concept to transforming ideas into pop-up spaces.

## **VOC09: COMMERCIAL ENVIRONMENTS**

Discover how thoughtful design can transform the way people shop, work and collaborate. Create inspiring retail environments, innovative office spaces, and dynamic training facilities.

## **VOC10: INTERIOR JOINERY DETAILING AND DOCUMENTATION**

Design and produce a detailed, industry-standard joinery documentation package. Refine your drafting skills and effectively communicate your design intent.

## **VOC11: HOSPITALITY ENVIRONMENTS**

Ignite your creativity and push the boundaries of design as you craft bold, experience-driven hospitality spaces - from buzzing bars to immersive restaurants.

## **VOC12: CREATIVE INTELLIGENCE AND RESEARCH**

Engage in a comprehensive investigation of architectural styles and the key factors influencing global design trends, with an emphasis on critical analysis of the cultural, social, economic, and technological forces that shape the world of design.

## **VOC13: PROJECT PROCUREMENT AND COORDINATION**

Develop advanced skills in procurement and project coordination, empowering you to manage a commercial interior design project from concept to completion - balancing budgets, timelines and client expectations.

Cert IV in Interior Decoration Units 1-4

Diploma of Interior Design Units 1-11

Advanced Diploma of Interior Design Units 1-17

**VOC14: REVIT AND COMMERCIAL CONSTRUCTION**

Unlock the power of Revit, the industry-leading building information modelling (BIM) software. Create intricate 3D digital models, generate precise documentation, and produce automated schedules for large-scale design projects. Examine critical building structures, systems and standards that underpin successful commercial projects. Gain experience producing professional-level construction and service drawings and specifications.

**VOC15: PEOPLE, CONNECTIONS AND DESTINATIONS**

Explore cutting-edge trends and future possibilities in the world of travel. Challenge the status quo by delving into visionary design concepts while balancing the practical, operational and functional aspects for designed destinations.

**VOC16: RETAIL ROLL OUT**

Immerse yourself in cutting-edge retail roll out for a variety of shopping destinations. Learn the art of commercial retail lighting and produce industry-standard documentation.

**VOC17: DESIGN SPECIALISATION**

Instigate, develop and manage a unique interior design project for a large-scale commercial project. Guided by an industry mentor, you will refine your ideas and build a compelling portfolio that showcases your creativity, technical expertise, and individual career aspirations.
