Diploma of
Interior Design

Diploma of
Interior Design
MSF50218

Become a creative problem solver with this industry focused qualification in interior design. You'll explore a range of real residential and commercial design projects including retail, hospitality and office spaces. You'll present your ideas with detailed documentation and impressive 3D renders.

Graduate with a career ready portfolio and the real world skills to thrive as a professional Interior Designer.

International Students

/ Intakes in January and July
/ 2 days x 18 months
/ 3 days x 12 months

AUD $29,090

Design Kit AUD $595

Units of Study

SDS01 Foundations of Design

Embrace core skills from concept development and drawing to the elements and principles of design. Explore the inspiring world of colour and learn how to create dynamic schemes.

SDS02 Interior Planning and Design

Learn the fundamentals of interior design, site evaluation, space planning for kitchens, bathrooms, living and outdoor spaces and lighting for a range of residential environments.

SDS03 Interior Schemes and 3D Visualisation

Explore all aspects of interior decoration including furniture, textiles, upholstery and window treatments. Visualise your designs in 3D through sketching, model making and perspective drawing.

SDS04 Residential Decoration

Prepare for the world of professional design by working on a real residential project – from initial client briefing right through to the final presentation. Learn the business skills to get started in the industry.

SDS05 SketchUp for Designers

Create realistic floor plans and interior models using SketchUp then apply a rendering tool. This user-friendly program enables you to create photorealistic visuals that will enhance your portfolio.

SDS06A AutoCAD and Interior Construction

Learn the fundamentals of interior building construction and extend your drawing skills with AutoCAD. Create an impressive collection of precise residential floorplans and elevations to add to your portfolio.

SDS06R Revit for Designers

Learn how to navigate this essential industry standard BIM modelling software. Design and build sophisticated interior spaces and create realistic 3D presentations of your working model.

SDS07 Residential Planning

Design, plan and model residential spaces by manipulating 3D space using extensions, voids and stairs. You'll present your ideas using a range of 2D and 3D media.

SDS08 Advanced Colour and Finishes

With a focus on sustainable design practices, you will explore and develop advanced colour schemes and material selections for interior, exterior and public spaces.

SDS09 Small Commercial Design

Extend your research and conceptualisation skills on a range of small commercial projects including cafes and exhibition spaces. Create dynamic interior, exterior and commercial colour schemes and learn what drives colour trends.

SDS10 Workplace Design

Explore the exciting and fast moving world of workplace design including office and retail spaces. Create a joinery package to showcase your documentation skills to potential employers.

SDS11 Hospitality Design

Develop and apply your conceptual design skills to a range of hospitality spaces including bars and restaurants. Prepare a professional resume and portfolio of work for graduation.
