

Advanced Diploma
of Interior Design

Advanced Diploma of Interior Design MSF60122

This immersive industry focused course will enable you to bring complex residential and commercial projects to life for a range of clients. For the final part of your course you will develop projects in a simulated design studio, working to an advanced level of documentation and visualisation.

You will tailor your portfolio by instigating and developing a project in a specialised area of interior design showcasing your unique skills and industry ambitions.

On Campus

- / Intakes in January and July
- / 2 days x 18 months then 3 days x 6 months
- / 3 days x 18 months

AUD \$30,190 (GST free)

AUD \$39,990 (GST free)
International students

Units of Study

SDS01 Foundations of Design

Embrace core skills from concept development and drawing to the elements and principles of design. Explore the inspiring world of colour and learn how to create dynamic schemes.

SDS02 Interior Planning and Design

Learn the fundamentals of interior design, site evaluation, space planning for kitchens, bathrooms, living and outdoor spaces and lighting for a range of residential environments.

SDS03 Interior Schemes and 3D Visualisation

Explore all aspects of interior decoration including furniture, textiles, upholstery and window treatments. Visualise your designs in 3D through sketching, model making and perspective drawing.

SDS04 Residential Decoration

Work on a real residential project – from initial client briefing right through to the final presentation. Learn the business skills to identify work opportunities and launch yourself into this exciting industry.

SDS05 AutoCAD and Interior Construction

Learn the fundamentals of interior building construction with AutoCAD. Create an impressive collection of precise residential floorplans and elevations to add to your portfolio.

SDS06 Residential Planning

Design, plan and model residential spaces by manipulating 3D space using extensions, voids and stairs.

SDS07 Advanced Colour and Finishes

With a focus on sustainable design practices, you will explore and develop advanced colour schemes and material selections for interior, exterior and public spaces.

SDS08 SketchUp for Designers

Create realistic 3D models using SketchUp. Then create photorealistic renders and walk throughs using a rendering tool.

SDS09 Small Commercial Design

Learn how to develop a creative concept and translate it into a commercial interior space. You will apply your new skills to design a café or an innovative exhibition space.

SDS10 Workplace Design

Explore the exciting world of workplace design including office and retail spaces. Create a joinery package to showcase your documentation skills.

SDS11 Hospitality Design

Develop and apply your conceptual design skills to a range of hospitality spaces including bars and restaurants.

SDS12 Hotel Design

Learn how to plan and specify furniture, fittings and finishes for a project to a budget and timeline. Then work as part of a team to design a multi-level hotel including back of house, rooms and hospitality and event spaces.

SDS13 Retail Design

Extend your knowledge of retail design and embrace the latest thinking on retail roll-outs. Prepare a comprehensive industry standard documentation package to enhance your portfolio.

SDS14 Commercial Design Projects

Work on a series of complex commercial design projects including aged care, early learning, or education. Develop a project in a specialist area of design of your choice and gain an understanding of the process involved in managing a design project.
