SYDNEY
DESIGN SCHOOL

Shot at DesignBy Them

Welcome to the home of creativity

Create spaces
Shape experiences
Design your future

If interiors light you up, you're exactly where you need to be.

At Sydney Design School, we believe great design can change how people think, feel and behave in a space, and it's a skill you can absolutely learn. More than that, it's a confidence you can build.

No ATAR? No experience? That's okay. Bring your passion and we'll help you shape it into something real. You'll gain hands-on studio experience, learn how to present to clients and develop a unique creative style that sets you apart.

Whether you're starting out, changing direction or finally backing yourself, Sydney Design School is your space to grow. Our personal career service is like no other, with tailored support, industry insight and genuine guidance to help you step into the design world ready, and in demand.

Create work you're proud of. Build a career you love. Choose an award-winning interior design school with a global reputation for outstanding graduates.

Be challenged to push your conceptual thinking, creativity and practical knowledge in this exciting course. It will give you the confidence and skills to become a valuable asset in any fast-paced interior design or architecture studio.

You'll start with the foundations of residential and commercial design and then move onto real world briefs that require you to develop dynamic and innovative approaches to interior design.

Gain experience across residential developments, retail stores, hospitality, and workplaces before moving onto larger scale projects collaborating as part of a design team, just as you would in a professional studio.

As you progress, you'll develop professional research skills, manage budgets, and produce detailed specifications and documentation - all highly valued industry skills.

For your final project, follow your passion - write your own brief, explore the area of design that you are passionate about, and work alongside an industry professional.

Present your design proposals using the latest, in-demand 2D and 3D modelling software, and impress potential employers with your ability to pitch your ideas professionally to potential clients.

Your portfolio will feature a broad range of design projects that showcase your capability and versatility. Your potential is limitless. Bring it to life with the Advanced Diploma of Interior Design.
