If you love interiors, this hands-on creative course is for you. You'll be fully immersed in the aspirational world of residential design and decoration.

We focus on building a strong foundation. You'll start with design principles, drawing, and the fundamentals of colour, then apply these skills to planning kitchens, living areas, bedrooms, and bathrooms. Our expert Educators will teach you how to select and source furniture, finishes and lighting to create interiors that are both functional and beautiful.

For your final project you'll be briefed by a real client and you'll design and present a complete home interior, creating a space that balances their practical needs with their personal style.

Whether you join a studio, work in-house for an industry supplier, or start your own business, you'll graduate with the skills, confidence, and experience to turn your passion for creating beautiful homes into a career you love.
